MasterCare, MediNet and ReferralNet
at 360 Health + Community

27 January 2016: Global Health is pleased to announce the signing of a new contract with 360 Health + Community, a Western Australian not-for-profit healthcare service provider.

360 Health + Community is a major Contracted Service Provider for all three WA Primary Healthcare Networks. This partnership will support the delivery of over 150,000 community healthcare services each year across 360 Health + Community's mental health, chronic disease management, case management, GP after hours and street doctor, inpatient and community services.

The agreement encompasses the licensing, implementation and ongoing support of 175 concurrent users across a bundle of integrated Global Health products including:

- MasterCare Electronic Medical Record (EMR);

- MediNet clinical software for General Practitioners;

- ReferralNet secure messaging for exchanging clinical documents between GPs, Allied Health and Community Health providers; and

- MasterCare Data Warehouse and reporting platform for real-time reporting dashboards across all programs and services.

This contract further builds upon Global Health's position as Australia's leading collaborative healthcare solution for multi-disciplinary, patient-centric healthcare providers. The company has been partnering with state and federal programs for over 10 years with the common goal of achieving productivity improvements with optimised patient outcomes.

Global Health CEO Mathew Cherian says:

"We are delighted to sign this contract with 360 Health + Community, and look forward to providing the software, reporting and connectivity tools needed to support clinical best practice across their wide range of programs and services. We remain confident of further gains in a market increasingly focused upon efficiencies and optimising the patient's experience."
