MasterCare PAS wins 2 New Hospital Contracts

9 May 2016: Global Health is pleased to announce the signing of two new contracts for the implementation of MasterCare Patient Administration System (PAS) into McLaren Vale and Districts War Memorial Hospital in South Australia, and Monash House Private Hospital in Victoria.

McLaren Vale and Districts War Memorial Hospital is a community-owned, not-for-profit hospital providing surgical, ante-natal services, post-natal and palliative care to the local community. MasterCare PAS is planned to be up and running by July.

Monash House Private Hospital is a new private hospital scheduled to open in late June specialising in interventional pain management, neurosurgery, orthopaedic and general surgery. Monash House will integrate Global Health's LifeCard Patient Portal into MasterCare PAS for a more streamlined admission process which enhances the patient experience, and ultimately improved health outcomes.

Global Health CEO, Mathew Cherian, commented:

"We look forward to partnering with McLaren Vale and Districts War Memorial Hospital, and Monash House Private Hospital, to improve efficiencies and ultimately improve patient outcomes. Our MasterCare PAS team actively respond to feedback from our private hospital client base and continually leverage this information to develop and enhance the products our clients need and want. We can also now contribute to a more streamlined patient journey through the integration of our LifeCard Patient Portal, whilst the recently enhanced Mastercare Provider Portal (already installed with three existing clients) further integrates the digital systems relied upon by multiple specialists."
