Global Health Secures Contract Win for Acurio's New Health & Wellbeing Hub in NSW & delivers uplift in cross sell revenue

Australian Healthcare Software Provider **Global Health Limited (ASX: GLH)** ("**Global Health**" or **"Company"**) is pleased to announce that it has secured a key contract with **Acurio Health Group in NSW** to provide **MasterCare PAS, Patient Portal, Data warehouse and e-switch Integration engine** to the currently under construction health and wellbeing hub, **The George Centre**, which will be one of the largest private hospitals in Sydney and the only private paediatric facility in the state.

Expanding the Global Health footprint further in NSW

This is an exciting contract 'win' and further expands the footprint for Global Health joining several other recent client wins across NSW, including **Arcadia Pittwater** and **Matilda Nepean**, **Wolper Jewish Hospital, East Sydney Private Hospital, Alwyn Rehabilitation Hospital, Royal Rehab Private Hospital, Metropolitan Rehabilitation Hospital** and **Wesley Mission** all of whom have come on board with Global Health's **MasterCare solutions** recently.

Successful cross sell revenue generation and client implementations

In addition, the MasterCare team have been working diligently to deliver cross sell revenue with recent wins including **MasterCare Discharge Summaries solutions** for **Alwyn Rehabilitation Hospital**, **Metropolitan Rehabilitation Hospital, Wesley Mission** and **East Sydney Private Hospital** further cementing existing contract relationships.

The implementation for Homeless HealthCare (a recently announced win, June 2022) successfully went live on Monday 31 October 2022.

Overall contract value and solution design

Overall, the total contract value, of all client solutions, is approximately **$502,000.** The George Centre 'win' continues the significant momentum Global Health is building in 2022 highlighting the strong growth trajectory of MasterCare solutions, with newly built facilities looking to digitise patient records and streamline a variety of operations, to ensure patients are given the high quality of treatment they deserve. NSW is a key market for Global Health, and this contract 'win' sees the Company expanding its exposure across the state with other targets in its sights.

Acurio – The George Centre

Global Health is excited to be providing the 'George Centre' with the **MasterCare PAS, Patient portal**, **Data warehouse and e-Switch integration engine solutions** to the state-of-the-art wellness facility. This new facility is scheduled to be completed in late 2022 and will bring the best maternity and paediatric healthcare in the APAC region to the south-western Sydney community. It will be in Gregory Hills and will be one of the largest private hospitals in Sydney and the ONLY private paediatric facility.

The George Centre will enable the provision of a world-class digital environment for clinicians and support staff and will deliver efficient and compelling care outcomes for patients. To achieve this vision, Acurio has sought partners such as Global Health, who can provide an expertise in digital services, and bring a proven track record in achieving strong results.

The George Centre's Solutions

Global Health will be providing the following MasterCare solutions to The George Centre:

MasterCare PAS
A market-leading bespoke Patient Administration Solution (PAS) to support Acurio in managing their reception, admin, finance, billing, and everyday operational tasks. This includes admissions, bed management, clinical coding, and state and federal funding.

Patient Portal

A SaaS-based digital Patient Portal to provide a fully customisable patient-facing site for managing patient information before admission. Equipping administration staff with the ability to receive patient information digitally, and automatically transfer that information into their PAS solution.

Data warehouse

Providing structured data to enable health providers to generate insight and reporting via multiple different business analytics tools.

e-Switch Integration engine

Integrate MasterCare with additional 3rd party systems using secure API keys. Allowing access to additional financial, clinical and operational data removing the barriers of siloed information. e-Switch meets Australian interoperability standards leveraging HL7, XML and HTTP to ensure security, efficiency and compliance when managing data.

Michael Davies, CEO of Global Health commented:

"We're delighted to work with The George Centre, a new state-of-the-art wellness facility for maternity and paediatric care and one of the largest private hospitals in New South Wales. This initiative is also further evidence of our desire to continue to expand our footprint into the important NSW market.

We are excited by the opportunity to deliver a digital environment which is truly integrated, enabling their clinical team and support staff to benefit from having access to a holistic patient record at point of care and ultimately assist in improved clinical decision making."
